The Journey of AWS in Greece

From 0…to extending our global infrastructure in the country

Welcome to Greece!

All travellers must complete their PLF before entering the country, providing detailed information on their point of departure, the duration of previous stays in other countries, and the address of their stay while in Greece. In case of multiple stays, they are required to provide the address for the first 24 hours at least. One PLF should be submitted per family.

- Travellers will receive the PLF with their unique Quick Response (QR) code via email (the QR code will be provided in a link in the email).

The PLF can also be found on the Visit Greece app and at travel.gov.gr. It is strongly recommended that all visitors download the Visit Greece app (GDPR compliant) for free, prior their arrival in Greece.

Note to all travelers: The official portal of the Hellenic Republic to complete the required PLF is travel.gov.gr. Any other websites that act as intermediaries, are not approved and are considered to be fraudulent. We therefore advise travelers to complete the simple process directly on travel.gov.gr

Edge Location deployed in Athens

Storing content closer to end-users for faster access to it

AWS Services benefited from this local infrastructure deployment:

- Amazon CloudFront
- AWS Lambda@Edge
- AWS Shield
- AWS WAF
